

Dear partners and friends,

we would like to take this chance to thank all visitors, co-exhibitors and organizers for the trustful collaboration during VISION show 2021. After this long period of time, it was great to meet many familiar but also new business contacts. With over 5700 fair visitors, including many professional visitors, VISION show was a great success for us. As usual, the exhibition was accompanied by the Industrial VISION Days. The forum was organized by VDMA. In this context, our Project Manager Paul-Gerald Dittrich moderated selected Photonics & Machine Vision sessions.

Industrial VISION Days – on demand

Messe Stuttgart broadcasted the Industrial VISION Days for the first time. Now the recordings are available on demand. You have the opportunity to watch all the 22 sessions of the 3 VISION days: 45 company presentations, 14 start-up pitches, 1 panel discussion and a Standards Update.
