Dear partners and friends,

we would like to keep you informed about the latest developments and trends in the fields of photonics and machine vision. We have therefore decided to continue with our **Photonics & Machine Vision Web Pitch Series in 2022**.

You are invited to present a 20-minute talk about a topic of your choice. This is a good opportunity to present your products, services, and technologies to a broad professional audience of partners and customers.

The Web Pitches are **free of charge**. The available dates as well as the registration can be found here.

Dates & free registration

-- Save your seat for the upcoming Photonics & Machine Vision Web Pitches 2022 --

The Photonics & Machine Vision Web Pitches organized in 2020 and 2021 are available online.

SpectroNet community booth @ VISION 2022

We would like to invite you to exhibit together with our partners and us at **VISION 2022** from **04** to **06 October 2022** in **Stuttgart** (Germany). VISION - the World's leading trade fair for machine vision - provides an overview of all important trends, suppliers, and innovations. **Six exhibitor spots** are available at the SpectroNet community booth*.

If you are interested in exhibiting with us at VISION 2022 and would like to receive more information about terms and conditions, please feel free to contact Mr. Daniel Kraus.

d.kraus@spectronet.de

You can find also more detailed information here.

*Please note that exhibitor space will be allocated on a first-come, first-serve principle.

World's leading trade fair for machine vision
