

chii 2020 was postponed to 28 and 29 October 2020

Dear Clusterpartner and Friends,

the planned Photonics Day Denmark 2020 in Hillerød, Denmark was unfortunately been cancelled and will not be postponed. Nevertheless, some of the topics and lectures will be presented at the **JENCOLOR 2020** on **26-27 august 2020 in Jena**, (Germany) and the **chii 2020** on **28-29 october 2020 in Graz** (Austria). Both conferences are actively organized and supported by SpectroNet.

Due to the current situation the SpectroNet team is available by mail, skype, teams or telephone. Please do not hesitate to contact us.

Thank you for your understanding and stay healthy!

Your SpectroNet-Team

News @ SpectroNet Cluster

New Member of the Advisory Board

We are proud to announce Mr. Simon Schwinger from Jabil Optics Deutschland GmbH as a new member of the Cluster Advisory Board.

URL: www.spectronet.de

New Clusterpartner solectrix GmbH

- Service provider in the field of high-end electronics solutions
- Specialized in systems and modules
- Innovator in embedded electronic engineering

URL: www.solectrix.de

New Clusterpartner IMAGO Technologies GmbH

- Specialist in the production of components for embedded vision systems
- Distributor of embedded vision components for 20 years
- Architect for computers for industrial image processing

URL: www.imago-technologies.com

New Clusterpartner Messe Control

- SpectroNet as a partner and exhibitor
- International trade fair for quality assurance
- Nearly 900 manufactures and exhibitors of QA equipment represented

Save the date: 04.-07. May 2021, Stuttgart

URL: www.control-messe.de

New Clusterpartner Messe Vision 2020

- Worlds leading trade fair for machine vision
- current and upcoming machine-vision technologies
- more than 11,000 visitors & 500 world-leading exhibitors

Save the date: 10.-12. November 2020, Stuttgart

URL: www.messe-stuttgart.de/vision

SpectroNet @ SPIE Photonics West 2020

- International society for optics and photonics
- leading event for the photonics and laser communities
- current and future photonic and machine vision technologies

URL: www.spie.org

SpectroNet @ MVTec Innovation Day 2020

- one day event for machine-vision experts and practical applications
- interactive sessions with live demonstrations and practical insights

URL: www.mvtec.com

SpectroNet @ embedded world 2020

- World`s largest trade fair for embedded technologies
- Meeting place of international embedded community

URL: www.embedded-world.de

SpectroNet @ W3+ Fair/Convention 2020

- Home Of Hightech Innovations
- interdisciplinary platform of the high-tech industry
- networking fair for the optics, photonics, electronics, mechanics

URL: www.spectronet.de/news

SpectroNet @ Heidelberger Bildverarbeitungsforum

- Well known forum for machine vision and image processing
- Topic: machine learning for 3D imaging and modelling

URL: www.bv-forum.de

SpectroNet @ SPECTARIS-Branchentag 2020

- Latest economic and market development of the photonics industry
- Valuable know-how of the industry and met partners of SpectroNet

URL: www.spectaris.de

OptoLab develops unique Heat Scanner

Non-contact temperature measurement

High measuring accuracy

Integration in complex safety systems [More...](#)

New Management Positions

Mario Bohnacker is the new Technical Product Manager and Christian

Eckstein as Business Developer and Partner Manager. [More...](#)

inspect award 2021

The application process for the inspect award 2021 will run until 15. May 2020. [More...](#)

EVK and OP Teknik present a stand-alone solution

The two companies developed a flexible, high- throughput system SELMA for accurate sorting of selected fractions in C&D waste. [More...](#)

Edmund Optics expands their business to India

Edmund Optics has opened a new management office in India, in the district of Bangalore in the state of Karnataka. New office and local website will allow them to react to the market needs. [More...](#)

10 years of Fraunhofer IOSB

In March our partner, the Fraunhofer IOSB, celebrated its 10th anniversary. The institute is the largest European research institution in the field of image acquisition, processing and analysis. [More...](#)

Optical filter to detect Covid-19

Our Partner Delta Optical Thin Film A/S can deliver physically small custom optical filters for research, clinical and fluorescence-based instruments. [More...](#)

60th International IWK Symposium

Technical University Ilmenau is excited to invite you to the 60th Ilmenau Scientific Colloquium and is organised by the Department of Mechanical Engineering. [More...](#)

chii2020 postponed to 28.-29. October 2020

The white rabbit is back. In cooperation with our partner Perception Park,

Upcoming SpectroNet Events and Conferences

Workshop for Thuringian companies

Topic: DSGVO and ePrivacy - secure handling of personal data

Date: coming soon

Venue: Jena, Germany

Link: www.spectronet.de

JENCOLOR SpectroNet Collaboration Conference 2020

Topic: Photonic Sensors and Systems for Measurement Engineering

Date: 26.08.-27.08.2020

Venue: Jena, Germany

Partner: LEG Thüringen

Link: www.spectronet.de

chii2020 (postponed)

Topic: Conference on Hyperspectral Imaging in Industry

Date: 28.10.-29.10.2020

Venue: Graz, Austria

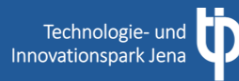

Partner: Perception Park GmbH

Link: www.chii2020.com
